Academics

Academics in the middle school set the stage for a strong high school career that prepares the students for college.

Honors classes are offered to students who qualify: Honors English, Honors Science and Algebra I are available to students who show a strong academic background and mastery. This prepares the students for success in a rigorous college-prep course of study.

All middle school students take high school prep and fine arts in rotation which includes: art, music, drama, foreign language, study skills, and computer classes. This gives the students the skills necessary for success in high school.

Spiritual Life

During the Middle School years students develop their walk with the Lord and make their faith real. Weekly chapels, weekly Bible studies, a spiritual retreat in the fall, guest speakers, and daily Bible class help the students examine what they believe in the light of God's Word. As a covenant school we partner with the families of believers to give the students a strong foundation spiritually as well as academically.
